WELCOME TO BENICARLÓ!

- Hi everyone!

- We are students from *Nuestra Señora de la Consolación* school in Benicarló, located in the north of Valencian community in Spain. We live in a small Mediterranean city with a fabulous weather.

WELCOME TO OUR SCHOOL!

- Our school is so big and has got many areas where we study, practice physical education or have fun with our friends.

- Are you ready? So... Let's enter!!!

THE ENTRANCE

- We are in the main entrance, as you can see, there is a long corridor where we have the secretary area, a yard, one of the canteens and the chapel.

- Because of the Covid-19 we have to arrive at school at 8:45. Each group has an entrance in different parts of the school. We are wearing masks, keeping the distance and using the water-alcohol extract.

THE CHAPEL

- As we are a religious school, we have a small church where sometimes during the year, we celebrate different festivities. M^a Rosa Molas was the first nun who founded this school, so she is very important for us.

A PRESCHOOL CLASS

- We are walking around the school. On the main floor, we can find the preschool classes, from three to six years old. Here, they are the cutest kids of our big family.
- Do you want to meet them? Let's go to show you an English class!

THE PSYCHOMOTRICITY CLASS

- Uf, we are so exhausted! We have done a lot of physical exercise shaking our body and playing in this psychomotricity zone with our classmates.

THE PLAYGROUND

- We have three playgrounds but this is the biggest one. It's the sunniest place. We used to have 25 minutes every day free for playing with our friends, but this course, because of the pandemic, we have alternate days and fenced zones.
- We can't play with balls or other toys but we are so creative and invent funny games.

THE GYM

- We love P.E. In this class we learn how to train our body and have a healthy lifestyle. We have a lot of tools for practising different sports like football, tennis, gymnastics... We wear a tracksuit uniform in that class.

THE AUDITORIUM

- Now, we can show you our FANTASTIC AUDITORIUM. It is enormous and it has capacity for 300 people.
- We used it to represent theatres and celebrate our graduations.

WE ARE MILLENNIALS!

- We are millennials, Internet is part of us. We use new technologies in all of our subjects. In all the classrooms there is a laptop, an interactive whiteboard, a projector and speakers.

THE ICT CLASS

- Apart from that, in our school, we also have got an ICT Classroom where we study Science and ICT.
- The school has got social networks and every week, we upload information about the latest news and events.

OUR PRIMARY CLASSES

- Uf we are exhausted, the school is too big. Look! This is one of our big number of classrooms! Our classmates are doing class, wow! they are so concentrated!
- In the class, we are learning new things and working a lot. This year we will finish primary school. What a pity... We are so happy because we have learnt a lot and we have made lots of friends here.
- That's our school, our big family, this is Consolación!
